PF Task #3

"While loop"

Submitted by:-

ABDULLAH WAQAR (506)

BSCS (MI) (Sn no 6)

Submitted to:-

Mr. Muhammad Tajamul

1) Display 1 to 10 using while loop :-

```
#include <iostream>
```

```
using namespace std;
```

```
int main()
```

```
{
```

```
    int n;
```

```
    n=1;
```

```
    while(n<=10)
```

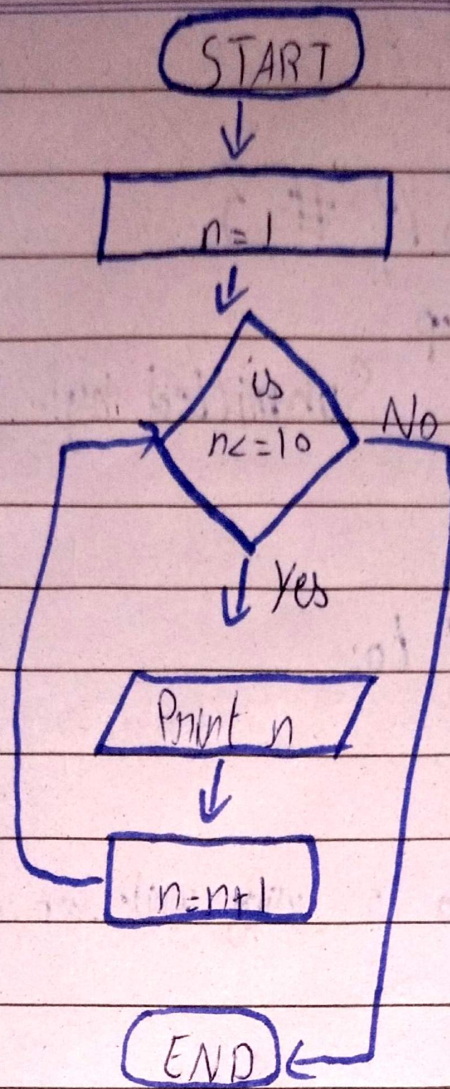

```
{
```

```
        cout<<n<<endl;
```

```
        n++;
```

```
}
```

```
}
```

2) Display Five Numbers with their Square

```
#include <iostream>
```

```
using namespace std;
```

```
int main()
```

```
{
```

```
    int n=1;
```

```
    while (n<=5)
```

```
{
```

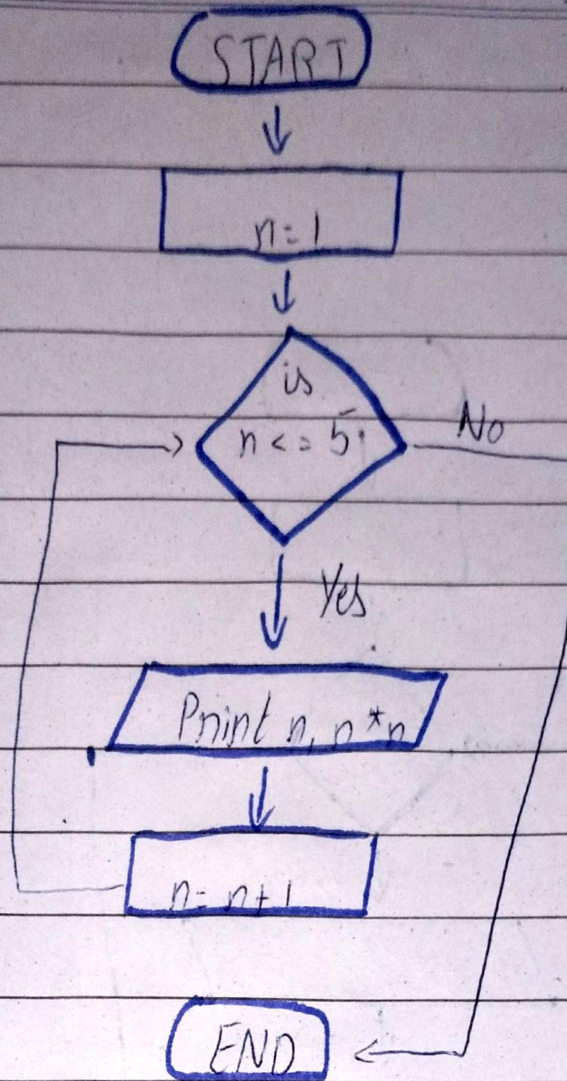

```
        cout << n << " * " << n * n << endl;
```

```
        n++;
```

```
    } }
```

Date: _____

Day: _____

3 Make a table by take number from user:-

```
#include <iostream>
```

```
using namespace std;
```

```
int main()
```

```
{
```

```
    int n, c = 1;
```

```
    cout << "Enter a number";
```

```
    cin >> n;
```

```
    while(c <= 10)
```

```
{
```

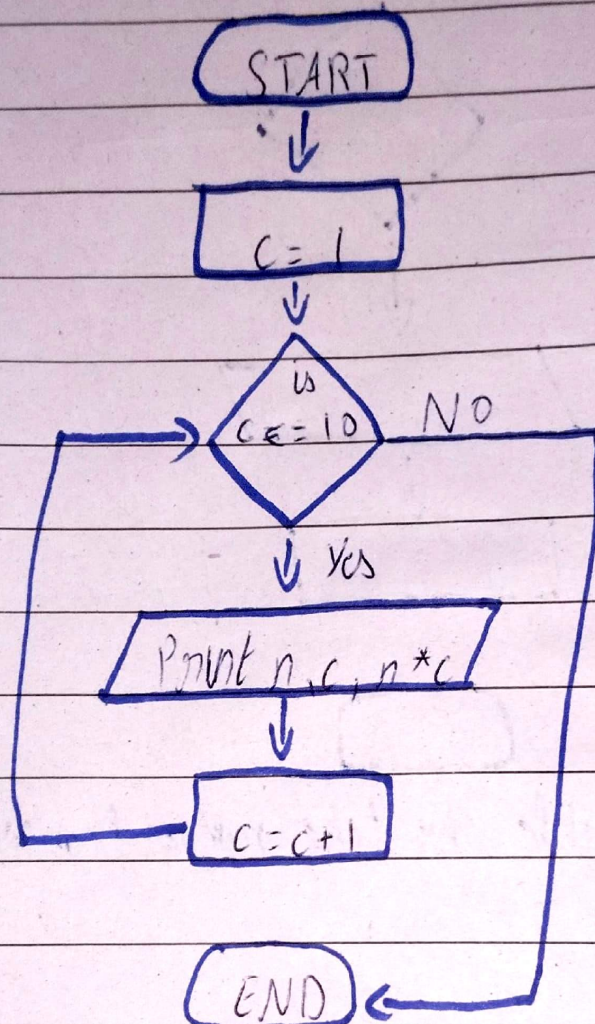

```
cout << n * c << endl;
```

```
c = c + 1;
```

```
}
```

```
}
```

4 Take number from user and Display Factorial

```
#include <iostream>
```

```
using namespace std;
```

```
int main()
```

```
{
```

```
long int n, c, f;
```

```
c = 1;
```

$P = 1;$

`cout << "Enter a number: ";`

`cin >> n`

`while (c <= n)`

`{`

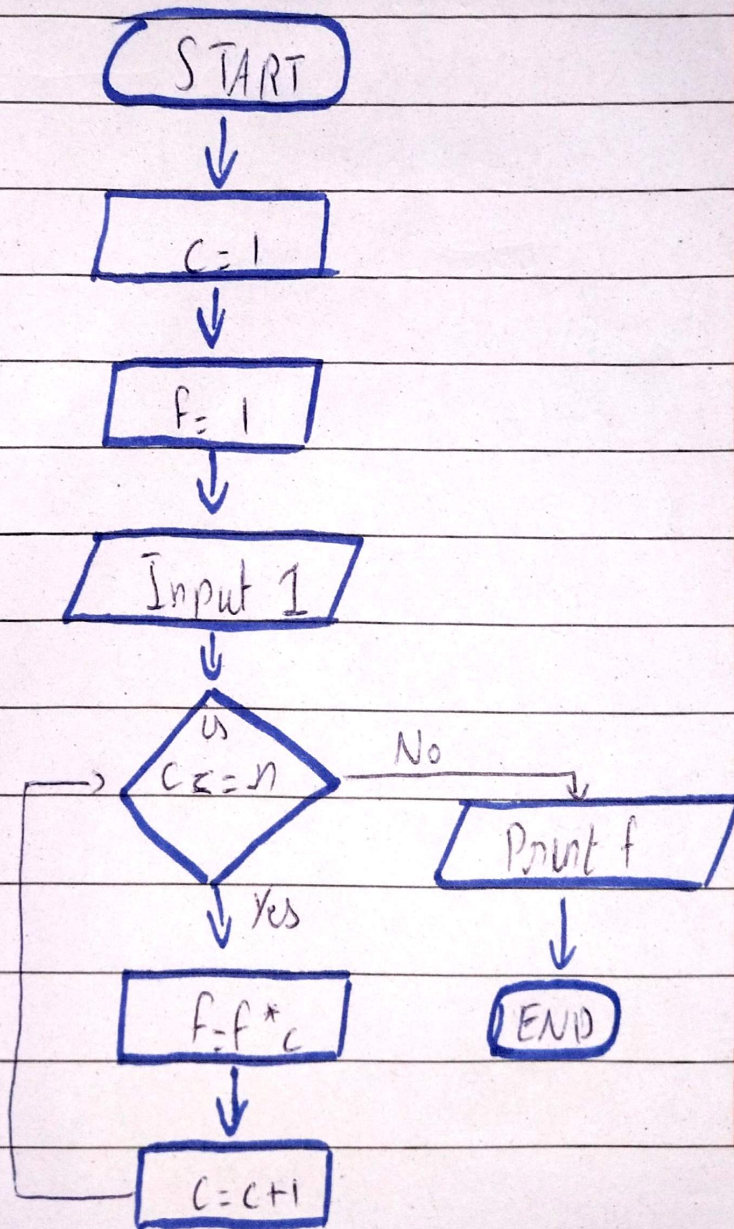

`$P = P * c;$`

`$c = c + 1;$`

`}`

`cout << "Factorial of " << n << " is " << P;`

`}`

Date: _____

Day: _____

5) Display Sum of the following:-

$$1 + 1/2 + 1/4 + 1/6 + \dots + 1/100$$

```
#include <iostream>
```

```
using namespace std;
```

```
int main()
```

```
{
```

```
    float c, n;
```

```
    c = 2.0;
```

```
    n = 1.0;
```

```
    while (c <= 100)
```

```
    {
```

```
        n = n + 1.0/c;
```

```
        c = c + 2;
```

```
    }
```

```
    cout << "Result is " << n;
```

```
}
```
